# CANTERBURY NEW HAMPSHIRE

Annual Report 1975

### Cover Photo

The Congregational Church, built in 1824 had the steeple repaired about 1884. The Church served the people of Canterbury until it was destroyed by fire April 7, 1943. To the left can be seen the building that contained Brown's General Store and Post Office, the Union Hall (where most public gatherings were held) and an apartment in which the owner lived. Built and operated by Alfred Brown in 1861, the store served as a place for public forum where issues of the day were debated by gentlemen gathered around the large box stove. A chimney fire originating in the Hall resulted in the fire that destroyed 4 large buildings and a long row of horse sheds in 1943. To the right of the Church is the livery stable, a General store and the Vestry. La Beau's Store was destroyed by fire in late 1922 and the livery stable was converted into a general store. Vacant for many years during the 20's & 30's it was utilized once again following the fire of 1943 by Gerald Giles. It is now owned and operated by Carl & Betty Peterson.

The Vestry was a building of many purposes. It was a home for the owners, including such important names in Canterbury History as Richard Greenough, James & Lucia Maria Elkins, Luther and Valerie Sargent and Sarah Hutchins. On the same level as the dwelling area was an area used as a store. Upstairs was a political hall and downstairs on the lowest ground level was an area used for a chapel and Sunday School Room. The morning following the 1943 fire the building was in operation as a store and Post Office. The building was torn down following an attempt to move it in 1957 which proved futile.

### Back Cover

The "Dark House" as it was called in the Moor Genealogy is the present home of Doug and Jeanie Richards and most commonly thought of by present day residents as the former home of Hugh and Delores Fifield. One of the original homes of the early Moors the house was probably built by William Moor in 1764. Before the first school house was built a room in this house was used as a classroom.

Canterbury Town Seal — The original seal was designed and hand painted in 1945 by Sister Helena Sarle, of the Shakers, and was mounted on the first Canterbury Fire Truck. This historical and valuable seal may be viewed in the town's museum.

The Shaker Barn was built in 1856. Constructed entirely of native chestnut on a foundation of granite blocks the barn measured 250' x 45' and had 2 floors on ground level. The barn housed the prize winning Shaker guernsey herd. For many generations this was the longest barn in New Hampshire and probably in New England. The much photographed building burned Aug. 11, 1973.

The Shaker Watering Trough and Highway Sign date back to 1831 when Brother Micajah Turner fashioned it from a piece of granite; possibly from a quarry in the neighborhood. Nathaniel Hawthorne was intrigued by the location and design and used it as the setting for his short story "The Canterbury Pilgrim". The trough was so designed that even though the flow of water was constant the water never overflowed and there was no provision apparent to take off the excess water. The sign on the granite post is now at the Shaker Village. It served to guide the travelers on the stage route for many years. Milages from Canterbury to Concord, Boston, Montreal and many other cities are listed on the well preserved sign.

## REPORT OF THE CANTERBURY CEMETERY COMMISSIONERS

The care of the cemeteries has been under the jurisdiction of the Dept. of Public Works for the past two seasons. Because of the newness of the arrangement it is difficult to estimate with any certainty just how much the yearly work will cost. How many times each cemetery must be mowed, how many stones will require expensive repair, how much must be allowed for vandalism, how many loads of loam will be needed for grave improvement are all yearly variables.

We are happy to report that the present arrangement is the most efficient and economical we have encountered to date. Through careful management Mr. Fifield has managed to complete the work season with a balance large enough to permit purchase of supplies for the forthcoming year at the end of the season when prices are at the lowest point. This should not be construed as "Christmas Shopping", it is Yankee Thrift, and results in dollar savings for Canterbury tax payers.

Much of the work planned for the 1975 season was not completed because of extenuating circumstances. Therefore, the Trust Fund income was allowed to accumulate to be used during the 1976 season. When the new portion of Maple Grove was cleared the natural drainage was destroyed. In fairness to the owners of the former Baptist School the natural flow of water must be restored. The accumulated money will make this possible at no increase in the requested budgetary figure.

The co-operation of the Public Works Department is most appreciated.

The 1975 Canterbury Fair was again very successful and was the primary factor in building the fund to its record level. The Trustees express their thanks to everyone who worked in it. As the Fair is the chief source of funds in building this fund for the benefit of our neighbors who may be in distress, we urge that everyone participate in the Bicentennial Fair of 1976. Mr. Robert V. Lee is Chairman of the Fair Committee and he would be delighted to have you call him as to what you can and would like to do for the Fair this year.

The Trustees thank Col. Sabin W. Guertin for auditing the books of the Fair for the year 1975.

## CANTERBURY HISTORICAL SOCIETY

During the past fall the roof of the Museum was reshingled, the flashing replaced and the old toilet vent removed. We are hopeful of having hardware cloth covers made for all windows this year. The glassene envelopes were purchased at a greatly reduced cost and the glass negatives are now protected and identified whenever possible.

We were happy to receive many important artifacts during the past year. Mr. Eisenhower donated a pre-Revolutionary cannon ball unearthed at the fort site in 1924; Mr. Stanley Morrill donated the original parchment map of the division of the town; Mrs. Nellie Rollins gave the original schoolmasters desk from the Uplands School; Hugh Fifield gave the lectern from the Worsted Church and one of the pews that were saved when the church burned nearly 20 years ago and Dr. True gave 3 cartons of papers from the Cogswell Estate — some official town documents and many letters that offer a glimpse into the past. We are most grateful to all donors for the irreplaceable items.

The Historical Society held a fund raising raffle in the fall. The prizes were won by the following:

250th Silver Medallion #82	David Fifield
250th Silver Medallion	Kay Brill
250th Bronze Medallion	Laura Brasseau of Bow
Town History Reprinted Edition #300	Liz Todd of Concord
Hand towels made by Elizabeth Canterbury of Athens, Ohio	Phil Cochran
Antiqued map of Canterbury	Erin Dickson

There remains a great deal of work to do at the museum. Participation in the Historical Society will permit us to accomplish our goals without the use of tax money.

CATHERINE DICKSON, President

## **ELKINS PUBLIC LIBRARY**

This year has seen a change in Librarians. It was with regrets that we accepted the resignation of Ann Albert, who has done such a superb job, but we were most grateful that Pat Laufman could step into the vacancy, with little change, and is willing to further her education along the State Library guidelines.

Our Library hours have been changed to see if we could better serve the people of Canterbury and also the school children would have the opportunity to take advantage of our services.

We would encourage all Canterbury residents to voice their opinions as to hours and to find out what books are available, also to suggest your choice of reading material.

We are very grateful to Rebecca Fowler for the substantial gift of books this year.

Our thanks to the Canterbury Cadets, Troup #396, for the lovely clock, given in memory of Debbie Ham, which has a prominent place on the mantle.

Our thanks again for all who worked so unselfishly for Elkins Public Library this past year.

Respectfully submitted,

HENRY DOUGHERTY  
DAVID EMERSON  
CHRISTINE HUNT

## **1975 ANNUAL REPORT OF CANTERBURY POLICE DEPARTMENT**

**Leroy A. Glines, Chief of Police**

As in previous years, we continue to use the Merrimack County Dispatch Center, which provides us with an efficient and professional dispatching and answering service. Canterbury is the fourth largest user of this service which is provided to any town in the county wishing to utilize it. The Merrimack County Sheriff Department, part of the dispatch center, was very helpful with their unlimited assistance on burglaries and other such related crimes. Remember the telephone number for the Canterbury Police Department is —

**228-1010**

1975 was filled with several incidents, both large and small. Some of the high lights of the past year included — an accidental shooting, medical emergencies, motor vehicle accidents, arsons and Canterbury's first full time police officer.

**1. Accidental Shooting.** 1975 started out for the Police Department in a most dramatic way. In January, the life of a twelve year old girl was taken by the blast of a rifle. As the first to arrive on the scene, I immediately called for the Fire Department and the Rescue Squad. Next to arrive on the location was the Merrimack County Sheriff Department, who I then turned the investigation over to. They in turn called the Attorney General's office and the County Medical Referee. This case brought about a very thorough investigation from all agencies involved including much concern from friends and neighbors about the future of the rest of the family.

2. **Medical emergencies.** The Canterbury Police Department is often called to assist with Medical Emergency calls and as a result, Fire Chief Rollins and this department thought it would be a good idea to have a resuscitator in the cruiser.

3. **Auto accidents.** The past year was one of the worst in the history of the Canterbury Police Department as far as injury and death were concerned. This last spring, one resident was badly injured and spent several months in the hospital and he will never walk freely again. Another was a seventeen year old boy who had lived in Canterbury for several years, had just moved out of town, and had returned for a visit when he was involved in a motor vehicle/pedestrian accident which claimed his life.

4. **Arsons.** During the spring of 1975, there were three fires of suspicious origin. The Police Department cooperating with Fire Chief Rollins, the State Fire Marshal's office and the Merrimack County Sheriff office, investigated two vacant camp fires in Sherwood Forrest and another at a residence on Baptist Road. Progress was made and a suspect was brought in for questioning but no arrest was made.

5. **First fulltime Police Officer.** Through the cooperation of the Mer-Bel Manpower Corporation, we were able to have a full time patrolman provide service to Canterbury in May and June. Larry Ashford came to us with experience from Henniker and proved to be a big help during the very busy spring. He is now back with Henniker Police Department as this particular manpower program has ended.

## **REPORT OF THE CANTERBURY VOLUNTEER FIRE DEPARTMENT**

1975 was the busiest year yet, with 62 incidents. 7 structurals, 7 investigations, 6 automobile fires, 5 automobile accidents, 12 mutual aid calls, 20 medical emergencies, 4 chimney fires, and 1 lost person.

The Penacook Rescue Squad made 25 runs to Canterbury in 1975 and transported 32 persons to the hospital.

Citizens of Canterbury are very fortunate to have a well trained rescue unit such as the Penacook Rescue Squad servicing them.

Canterbury Volunteer Fire Department has been training with the Penacook Rescue Squad and additional training is being scheduled.

Canterbury Fire Department members spent over 100 hours in training on fire fighting tactics and rescue operations in 1975.

I would like to take this opportunity to thank each and every member of the Canterbury Fire Department for the tremendous help and support they have given me throughout the year, and also to the Ladies Fire Auxiliary for their support.

Yours in Fire Safety,

Chief Philip R. Rollins

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Upon the recommendation of town selectmen and city councils, the Division of Forests and Lands appoints a forest fire warden and several deputy forest fire wardens in each town and city every three years. The town or city warden is responsible for maintaining a force of men and adequate equipment to suppress any wildfire that occurs in his town or city during his term of appointment. The fire warden must authorize all open burning when the ground is not covered with snow. No open fires can be authorized between 9 a.m. and 5 p.m., unless it is raining, without the additional permission of the state district fire chief.

Any person wishing to kindle an open fire when the ground is not covered with snow must first obtain the written permission of the forest fire warden. Camp and cooking fires also require the warden's permission.

The Division of Forests and Lands, through its Forest Fire Service, assists all cities and towns in meeting these requirements by training the warden and deputy forces in wildfire suppression tactics, making hand tool suppression equipment available at fifty percent of cost, supplying pieces of Federal excess property for use as fire attack vehicles and sharing up to fifty percent of the cost of wildfire suppression costs.

Wildfire prevention is also a joint state, city or town program. Smokey Bear is available from the Forest Fire Service for local fire prevention programs. Posters and Junior Ranger kits are available for distribution by local fire departments upon request to the Forest Fire Service. Each forest fire warden is expected to carry on a continuous wildfire prevention program within his town or city.

## **REPORT OF THE PLANNING BOARD FOR THE YEAR 1975**

Due apparently to the general decline in real estate activity, there was a corresponding decrease in the number of applications received for major subdivisions during 1975. However, the Planning Board continued to receive a considerable number of minor subdivision requests, mostly of the two-lot variety meeting the requirements for exemption under Par. 2.09 of the Regulations.

Besides the eleven regular monthly meetings, the Board met seven times in special "work" sessions, in order to keep up with the number of matters demanding its attention. Also, the Board conducted two field trips for site inspections. Much of its meeting time was devoted to a step-by-step consideration of the land-mark cluster development case, which neared completion by year-end, after more than two years of continuous review. Requests from two property owners for discretionary easements, under RSA 79 A:15, were approved, after favorable action by the Conservation Commission, and referred to the Board of Selectmen to acquire discretionary easements in behalf of the Town.

Although some relatively minor changes in the Zoning Ordinance have been discussed, from time to time, the Board has no plans to submit any proposed amendments to the voters at the 1976 Town Meeting.

The Board notes with regret, the resignation, effective not later than the 1976 March meeting date, of J. Lewis Cunningham, a member since March, 1974, and vice-chairman since March, 1975. His keen mind and prior experience have contributed much to the deliberations of the Board and will be missed.

## **REPORT OF THE CENTRAL NEW HAMPSHIRE REGIONAL PLANNING COMMISSION**

At the end of 1975 and five years of operation the Central New Hampshire Regional Planning Commission had become involved in numerous studies of both local as well as a regional nature.

On the regional side, the Commission is currently involved in studies related to historic preservation, land use, housing and inventorying the community facilities that exist within the region. Of a general nature the Commission completed studies in the areas of conservation, solid waste management, resources inventories. Every member community received the following reports: Conservation Case Studies, Municipal Fiscal Management, A Guide for Evaluating Development Proposals. The latter was presented to members of the Planning Boards of all member communities along with two sets of N.H. RSA's relating to planning.

Member communities also received a series of 1975 aerial photographs for use by local officials and an opportunity to order enlargements of the same which could be used as adequate bases for tax map purposes. The aerial photographs and enlargements were given to member communities as part of the Commission's local assistance program.

Other assistance provided dealt with aiding the Planning Board with technical reviews of subdivision plats and in many cases with assistance in revising subdivision regulations.

The Commission appreciates the support of its member communities and hopes for continual affiliation with each and every member.

During 1975 the Board held hearings upon application of the following parties:

Benjamin Ladd	Anton and May Nelson
John Goegel	Katherine Cushman
William Kelso	Ann Fifield
Stewart Wright	S. J. DeMaggio
Malcolm Anderson	Philip Stone, Sr.
Seny Mark	Thomas Geno

Fourteen requests were granted with conditions attached. One request was denied. Costs of advertising, postage and secretarial work are paid by a fee of \$15.00 for each application.

## **CONSERVATION COMMISSION ANNUAL REPORT 1975**

Your Conservation Commission has been involved in a variety of activities during the past year.

The interest in having Class Five roads designated as Scenic Roads continued from 1974. Your Commission assisted interested residents on five roads in preparing valid petitions for action at the Annual Town Meeting. These petitions were approved by the Town Meeting.

There has been much misunderstanding about the practices which would qualify land for consideration for taxation under the open space act. A Forestry Field Tour was scheduled in June to show these practices to interested landowners and citizens. All landowners who had applied for open space taxation were notified individually, and other residents were told of the meeting by poster and news item.

Applications for discretionary easements on two areas were referred to the Conservation Commission by the Planning Board. These were examined and returned to the Planning Board with recommendations for approval.

Our interest in outstanding natural areas continues. We are following up on several potential areas which would be desirable to preserve as natural and wildlife areas for the town.

We are preparing an index of the natural and scenic areas and the swamps, streams, and wetlands in town. This index may be the basis for recommendations for the utilization, protection, and development of these areas.

## BICENTENNIAL COMMITTEE

Many of the organizations represented on the Bicentennial Committee have listed tentative plans for their portion of the 3 year community celebration.

The kick off event was a public supper and contra dance held in April to commemorate the 148th anniversary of the incorporation of the Town. Barbara and Bob Scarponi were commissioned to design and cast a medallion to serve as a Bicentennial and 250th commemorative coin. Silver and bronze medallions were on sale at the Summer Fair. 82 numbered, registered silver medallions had been sold to Canterbury residents or former residents prior to that date. The Committee feels most fortunate to be able to offer a medal made and designed in Canterbury for Canterbury. To date we have sold 19 silver and 65 bronze medals in addition to the numbered ones. We also gave a bronze medal to Rev. Stevenson and Rev. Bascom for their participation in our Bicentennial Community designation ceremony. A silver and a bronze medal were given to the grand Prize winners of the Shaker Regional School District Bicentennial Essay Contest.

Both the silver and bronze medals are available on order.

Present plans call for a large celebration in July of this year and the grand final will be an Old Home Day Celebration in August of 1977.

Chairman Canterbury  
Bicentennial Committee

## VISITING NURSE ASSOCIATION REPORT

Canterbury voted to become a member community of the Concord Regional Visiting Nurse Association at the 1975 Town Meeting. The sum of \$1,225.00 was appropriated based on a per capita rate. I was asked to serve as the Canterbury Representative on the Board of Directors. The Board meets every month September thru June. Between March 11th and December 31st the Visiting Nurse Association provided the following services to our residents:

Care of the Sick Program	5 patients	18 visits	
		at \$12.00,	\$216.00
Pre-school Health Clinic	4 patients	4 visits	
		no charge	
Family Planning	2 patients	3 visits	
		no charge	
Received from Town Appropriation			\$1,225.00
Received from patients			60.00
based on ability to pay			
Total received			1,285.00
Total charged			216.00
Balance credited to Town Account			1,069.00

The year for the VNA ends in September. Based on the use of the past year it was felt that there was no need for an appropriation this year. If the balance in September seems inadequate for the 1977 year there will be a request for additional money at the 1977 Town Meeting.

CATHERINE DICKSON, R.N.  
Canterbury Representative, Board of Directors  
Concord Regional Visiting Nurse Association

## SANITARY LANDFILL

Based on the findings of engineering data the Canterbury industrial site would make the best sanitary landfill site. The environment would be protected and the operational costs would be less than the other alternatives.

The industrial site located between Interstate 93 and the railroad tracks, plus its geometric location for the adjoining towns, make the site a prime area for a recycling center. The hearings held before the townspeople indicated a strong desire to eventually go to recycling of all solid wastes (metal, glass and paper). In accordance with Mr. Thomas Sweeney (Public Health Service) a glass recycling firm is presently looking into a New Hampshire site. Recycling for a town of Canterbury's size presently is prohibitive due to the high cost of transportation to a Massachusetts recycling center.

Transportation costs from Canterbury to Concord make our participation in their landfill almost prohibitive.

Inspection of the Hildreth landfill site (off Wilson Road) showed some possibilities for use as a sanitary landfill. Existing dug pits indicated some coarse gravel and sand. The depth to ledge in the area is a major concern as there are many ledge outcrops in the area. Part of the land is taken up by the powerline R.O.W. which could not be used for landfill purposes. The biggest objection to the site would be the cost of upgrading 0.4 miles of road and the ability to obtain R.O.W. or easement over the land of adjoining owners.

The final decision as to which way to handle Canterbury's solid waste problem should be decided at the town meeting in March so that a final report can be submitted to the State Air Pollution Control Commission by July 1, 1976.

In any event, the existing dump must be closed to prevent further air pollution and contamination of Crane Neck Pond through the transmittal of leachates from the present dump into the swamp.

Raymond G. Cushman, Chairman

Canterbury Sanitary Landfill  
Committee
